

SXE CONTRACTS
CY 2024 to 7 Apr 2026
As at 7 Apr 2026

Date	Value	Entity	Customer	Sector	Nature	Summary
20-Mar-24	\$70m	Heyday	Multiplex Constructions Pty Ltd	Data Centre	Electrical (Design & Construct)	- NEXTDC SYD03 Artarmon – Stage 2 Phase 3 (Separable Portion 14) - HV D&E string supplies (Level 1) + AE-AH modules (Level 4) - 33kV cabling, transformers, HV/LV switchboards, generators, rotary UPS - Electrical services for Hyperscale Data Halls 2C & 3E incl. busway system - 4th significant award to Heyday at this DC
		SCEE Electrical	Hammersley Iron	Mining	Electrical (HV upgrade)	- Supply, installation, testing & commissioning support for the electrical equipment and auxiliary items at selected substations of the RTO Marandoo operation. - ETC Q4CY2025
		SCEE Electrical	BHP (Iron Ore)	Mining	Electrical	Awarded a Decarbonisation Project - Battery Electric Locomotive Charging Stations, on the Pilbara Rail Network, ETC Sep 2024 Requires power system upgrades to support the new infrastructure and charging equipment from the existing network
		SCEE Electrical	BHP (Iron Ore)	Mining	Electrical	Transformer Installation Project on an operational site in the Pilbara. Requires installation of a transmission transformer along with power and communications cabling to connect and integrate into the existing power network
		SCEE Electrical	BHP (Iron Ore)	Mining	Electrical	Communication Repeater Power Upgrade on Rail Repeater sites in the Pilbara. Work require power system upgrades to support the migration of equipment from the existing EOL comms room, upgrading comms room and new solar hybrid systems
		SEME Solutions	Sodexo Remote Sites	Mining	Security	Installation of new CCTV systems across 26 accomodation villages in the Pilbara, ETC May 2025
16-Apr-24	\$50m	Heyday	Multiplex Constructions Pty Ltd	Data Centre	Electrical (Design & Construct)	- NEXTDC SYD03 Artarmon – Stage 1 Phase 2 (Separable Portion 17) - Fit out Lvl 2 HVSB-C String Supplies, Lvl 6 BE-BH, Lvl 7 CA-CD, Lvl 8 CE-CH Power System Modules - 33kV cabling reticulation, transformers installation, HV/LV switchboards, generators, rotary UPS - 5th significant award to Heyday at this DC, ETC Mar 2026
		Heyday	J Hutchinson Pty Ltd	Data Centre	Electrical	- Follow-on from existing contract for the Base Building and Phase 1 works - Phase 2 includes extension and integration of Phase 1 Infra services, including HV cable reticulation, comms systems and installation of Ph 2 systems, including HV Ring Main Units, transformers, LV switchboards & generators, cable containment, LV reticulation, lighting and power systems - ETC Q2, CY2024
		Heyday	Barpa Pty Ltd	Commercial	Electrical (Design & Construct)	- Design & construct for electrical, communications & security services for the John Gorton Campus Carpark, a 5-storey building with car park and childcare in Parkes ACT. - Includes 16 x 22kW EV chargers, fed via a dedicated chamber substation.
		Heyday	Hindmarsh Constructions	Commercial	Electrical	- Electrical and communications contract for the ANU University House, heritage-listed, damage refurbishment project. - Scope includes the supply and install of LV switchboard, submains upgrade, sub-circuit reticulation, EMS metering, internal & external lighting, general power and communications throughout the buildings student accomodation area and communal spaces
		Heyday	Geocon Constructors	Commercial	Electrical (Design & Construct)	- Design & construct for electrical & communication services for the Allara Street development within CBR city - Comprises 325 apartments across 3 multistorey towers, with 2 carpark basement levels and shared common spaces

SXE CONTRACTS
CY 2024 to 7 Apr 2026
As at 7 Apr 2026

Date	Value	Entity	Customer	Sector	Nature	Summary
06-May-24	\$160m	SCEE Electrical	Synergy	Decarbonisation	Electrical (Design & Construct)	<ul style="list-style-type: none"> - Balance of Plant works contract for the 500 MW/2,000 MWh Collie Battery Energy Storage System, ETC 1QCY2025 - Largest initial award by contract value in the group's history <p>The scope of the BOP Works includes civil and structural works; firewater reticulation and hydrant systems; a concrete culvert cable containment network; 220kms of 33kV reticulation cabling through a pit and pipe network; installing, cabling and commissioning of 640 battery container units and including managing the laydown facility for their delivery at the Port of Bunbury; Power Conversion Systems ("PCS") comprising of 160 inverter/chargers, transformers and Ring Main Units; kiosk substations comprising of LV distribution boards, transformers and Ring Main Units; installation of two 33kV switch rooms; construction and commissioning of an operations and maintenance building and a site security building; and other ancillary equipment.</p>
05-Jul-24	\$50m	SCEE Electrical	Synergy	Decarbonisation	Electrical (Design & Construct)	<ul style="list-style-type: none"> - Award of Collie Battery Energy Storage System 330kV Switchyard Package, as a contract variation to the BOP contract announced 6 May 2024 <p>The 330kV Switchyard Package will include civil and structural works, 330kV overhead line gantries, installation, testing and commissioning support of 330kV/33kV transformers, circuit breakers, surge arrestors, current/voltage transformers, a 330kV control room and a communications and SCADA system, all tying into the Western Power network.</p>
11-Dec-24	\$125m	Heyday	Multiplex Constructions Pty Ltd	Data Centre	Electrical (Design & Construct)	<ul style="list-style-type: none"> - 6th award at the NEXTDC SYD03 Artarmon NSW Data Centre <p>Separable Portion 18 is an electrical design and construct works package, which includes the fit-out of the High Voltage Level 1 HVSB-D & E String Supplies and the Power System Modules for Level 5 DA-DD, Level 6 DE-DH, Level 7 EA-ED and Level 8 EE-EH, together with associated 33kV cabling reticulation, installation of client-supplied transformers, High Voltage and Low Voltage switchboards, generators, and Rotary UPS units. The new Power System Modules extend services to Hyperscale Data Halls 1B – 8B, covering data rack, general lighting, electrical and structured cabling infrastructure, submain supplies, and an over-the-rack busway system, facilitating the supply of end-client equipment and mechanical fan wall systems. This contract</p>
		MDE Group	FDC Construction NSW	Infrastructure	Electrical & Communication	<p>MDE Group ("MDE"), our recently acquired subsidiary in Sydney, has been awarded by FDC Construction (NSW) Pty Ltd ("FDC") the contract for the comprehensive electrical and communication services at The Cutaway, Barangaroo. This project, in collaboration with FDC and on behalf of Infrastructure NSW, will deliver for Sydney a new venue for cultural events and exhibitions. MDE will be responsible for installing a range of critical infrastructure elements across the 10,000 sqm site. This includes new consumer mains, a 3000 Amp main switchboard and distribution boards throughout the facility. In addition to the above, the project involves the installation of specialist feature lighting within the event space to accommodate a variety of events. MDE will also ensure the existing security infrastructure of the Barangaroo precinct remains operational while new communications rooms are demolished and rebuilt to suit the venue. Works have commenced and are expected to be completed in 2025.</p>
		Trivantage Manufacturing	Spark NEL DC JV	Infrastructure	Manufacturing	<ul style="list-style-type: none"> - Supply LV Equipment for MEL NE Link highway scheme - Combination of main switchboards, distribution boards, pump control panels and UPS systems
		Trivantage Manufacturing	ACCIONA Construction	Infrastructure	Manufacturing	<ul style="list-style-type: none"> - Supply LV switchboards and transformers for SYD's Western Harbour Tunnel Package 2 - Includes combinations of main switchboards, motor control centres, transformers, power factor correction units and distribution boards.
		SCEE Electrical	TEC Desert Pty Ltd	Mining	Electrical	<ul style="list-style-type: none"> - Mt Keith West Network Upgrade Project in the Goldfields, WA - Upgrades to the Mt Keith 132kV network via extension of existing Gas Insulated Switchgear, new 132kV transformers, new 11kV switchrooms which will replace legacy 11kV switchgear located at TransAlta's diesel power station
		SCEE Electrical	Alkimos Seawater JV	Infrastructure	Electrical	<ul style="list-style-type: none"> - 132/11kV substation and Construction Power Infrastructure project, in Perth WA - Includes installation of 132kV Gas Insulated Switchgear, 132kV transformers, 11 kV switchgear together with associated equipment, cabling systems, cabling containment systems, equipment support systems, earthing systems, termination and testing of all power, instrumentation, control & communication systems

SXE CONTRACTS
CY 2024 to 7 Apr 2026
As at 7 Apr 2026

Date	Value	Entity	Customer	Sector	Nature	Summary
16-Dec-24	\$100m	Heyday	Watpac Construction	Infrastructure	Electrical (Design & Construct)	- Design & construction of the electrical, associated communications, security & nurse call works for the new Shellharbour Hospital - 2nd hospital project Heyday is constructing in the region
		Heyday	J Hutchinson Pty Ltd	Data Centre	Electrical	- Largest ever hospital contract award - 3 further packages of electrical works at 2 hyperscale data centres in NSW, where it is already working
		Trivantage Manufacturing	Safety Focused Performance JV	Infrastructure	Manufacturing	- Supply of Outdoor Motor Load Control Kiosks for installation at a Water Treatment Plant in Victoria
		Trivantage Manufacturing	McConnell Dowell Constructors & BMD Constructions JV	Infrastructure	Manufacturing	- Manufacture and supply of a transportable switchroom for Fitzroy to Gladstone Pipeline in QLD
		Trivantage Manufacturing	Klenner Murphy Electrical	Commercial	Manufacturing	- Supply of LV switchboards for the Dexus Waterfront Place Redevelopment in BNE
		Trivantage Manufacturing	ACCIONA Construction	Infrastructure	Manufacturing	- Supply of Control System Cabinets for the Western Harbour Tunnel in SYD
		Trivantage Manufacturing	Spark NEL DC JV	Infrastructure	Manufacturing	- Supply of Remote I/O Modules for the NE Link in MEL
17-Jun-25	\$70m	Heyday	CPB Contractors	Infrastructure	Electrical (Design & Construct)	- Awarded the Western SYD Airport Stand Alone Facilities Project, comprising 2 major packages of work critical for airport operations and supporting key border agency functions - Scope to design & construct the electrical, communications, ICT, security and AV systems, and to provide EV chargers and PV systems for both sites - MDE Group will provide the communications and ICT services to Heyday along with the critical network cabling infrastructure to interface into the sitewide network systems - 11th package awarded to the Group, 5 to Heyday, 6 to MDE working directly for a 3rd party or as a sub-contractor to Heyday
		Heyday	J Hutchinson Pty Ltd	Data Centre	Electrical	- 2 further packages of electrical works at a hyperscale DC in SYD's West - Total of 6 packages awarded to Heyday at this site
16-Aug-25	\$110m	SCEE Electrical	Energy Queensland	Infrastructure	Asset Maintenance	- Awarded 4-year extension under existing Service Agreement, 2nd renewal or partnership - Continue to provide comprehensive asset inspection and maintenance services across EQL's Northern Region network. - Scope includes inspection, testing of earths, minor maintenance and treatment of both overhead and underground assets, ensuring the ongoing safety and reliability of EQL's distribution and transmission infrastructure.
		SCEE Electrical	Newmont	Mining	Electrical	- Recurring revenue stream - 5-Year MSA for the provision of general electrical and shutdown labour support at the Newmont Boddington gold mine in WA - Expands 30 year relationship with NEW, 4th extension of this Agreement
		Trivantage Manufacturing	WeBuild SPA	Infrastructure	Manufacturing	- Recurring revenue stream - Supply LV switchboards and communications panels for the SYD Metro-Western SYD Airport project. - Scope includes the supply of over 600 units - comprising Segura modular LV switchboards, custom-designed distribution boards and communications panels, for installation within the tunnels and at surface level
		Trivantage Manufacturing	FIP Electrical	Commercial	Manufacturing	- Supply of main switchboards and distribution boards for a development in SYD's Darling Harbour precinct

SXE CONTRACTS
CY 2024 to 7 Apr 2026
As at 7 Apr 2026

Date	Value	Entity	Customer	Sector	Nature	Summary
16-Dec-25	\$90m	Heyday	SHAPE Australia	Data Centre	Electrical (Design & Construct)	Heyday has been awarded by SHAPE Australia Pty Limited ("SHAPE") the design and construct scope for the installation of low-voltage switchboards, busways, generators, and UPS systems, along with the supply and installation of cable containment, LV reticulation, lighting, and general power systems. Works have commenced and are scheduled for completion in Q2 2026. Heyday has a long-standing history at this data centre facility, having completed major electrical works on behalf of the M+W/Cockram Joint Venture in 2014, when the site was known as Global Switch, followed by a further significant power upgrade in 2017 for Hutchinson Builders.
		Force Fire	SHAPE Australia	Data Centre	Fire Services (Design & Construct)	Force Fire has been awarded by SHAPE the fire services design and construct works which scope includes the fire hydrant system, portable fire extinguishers, automatic fire sprinkler system, fire detection system, emergency warning and intercommunication system, and a water mist system. This is in addition to demolition works on site which have recently been completed by Force Fire for SHAPE. The installation works have commenced and are expected to be completed in Q2 2026.
		Trivantage Manufacturing Heyday	DigiCo Infrastructure WeBuild SPA	Data Centre Infrastructure	Manufacturing Electrical	- Supply of electrical switchboards for the project, including the manufacture and supply of 7 sets of generator and UPS switchboards - Electrical and Communications Systems package for the St Mary's Station Project, part of the Sydney Metro-Western SYD Airport Line - Scope includes full LV Electrical & Communications services installation and installation of switchboards supplied by Trivantage under a consortium-wide agreement
16-Dec-25	\$90m	SCEE Electrical	PLUS Grid Storage Partnership	Decarbonisation	Engineering	- Awarded detailed engineering scope - Scope includes procurement of long-lead items, progression of engineering to 100% completion, Construction Commencement - Will leverage expertise of other group companies - Follows completion of delivery of Sverdrup's Collie BSS project - 2 school projects in ACT (1) Bungendore High School - electrical, communications, security, AV services, fire detection (2) Second College Gungahlin - electrical, communications and AV services
		Heyday	Hindmarsh Constructions	Infrastructure	Electrical (Design & Construct)	- 3rd school in ACT (3) Whitlam Primary School - electrical, communications and AV services
		Heyday	Icon Pty Ltd	Infrastructure	Electrical (Design & Construct)	- For design, supply & installation of electrical works, including supply of the main switchboard for several pump stations, and a pipeline for WLD's Mount Morgan Water Supply Project.
		SJ Electric	Haslin Constructions	Infrastructure	Electrical (Design & Construct)	
11-Feb-26	\$75m	SCEE Electrical	CITIC Pacific Mining	Mining	Electrical Maintenance & Repair	- Awarded new 2-year MSA to provide electrical maintenance & repair services in the Milling area at the Sino Iron Project in WA - Continues long standing relationship under successive MSA's since 2015
		Heyday	Taylor Construction Group	Data Centre	Electrical	- Awarded further packages of electrical works at a hyperscale DC in SYD's West - Brings total packages awarded to Heyday to 10
		Heyday	Multiplex Constructions Pty Ltd	Infrastructure	Electrical (Design & Construct)	- Awarded main electrical, communications and security package for the new CBR Lyric Theatre
		Force Fire	Richard Crookes Constructions	Commercial	Fire Services (Design & Construct)	- Awarded the fire services contract for the base building construction and integrated fit out of 100,000sqm distribution centre in SW SYD for a major retail chain - Scope is to design & construct the fire services for the entire facility, comprising sprinkler systems, detection and alarm systems, hydrants, hose reels, portable fire extinguishers, and interfaces with other services including smoke fans, BMS, PA and security systems
