About Aussie Broadband Limited

Aussie Broadband is an Australian operated telecommunications and technology company that formed in 2008 and is headquartered in Morwell Victoria, Australia.

The Company provides a broad range of solutions to residential, business, enterprise and government customers, and provides wholesale access to other telcos and managed service providers.

As a licensed carrier, the Company provides broadband services nationally through a wholesale agreement with NBN Co, its own fibre network, and some leased backhaul infrastructure from third parties.

The Company is the 5th largest provider of broadband services in Australia and is one of only six tier 1 voice providers in Australia.

Aussie Broadband is focused on building market share in the business, enterprise and government and wholesale segments through its range of cloud, security, broadband, voice, and managed solutions, whilst continuing to build share in the residential segment.

The Company also offers a range of other telecommunications services including voice, mobile plans and handsets, entertainment bundles through its partnership with Fetch TV and connections through the Opticomm network and its white label platform.
