

Mobilicom technology selected by new teleoperation customer with initial PO of \$150,000

Key points

- **Mobilicom receives first order for \$150,000 for its controller and MESH networking solutions from fire control systems manufacturer Smart Shooter**
- **Smart Shooter is a world-class designer, developer, and manufacturer of innovative fire control teleoperation systems used in anti-drones, law enforcement, security and military settings and the Mobilicom equipment will be incorporated into its fire control systems**

23 February 2021 – Mobilicom Limited (Mobilicom or the Company, ASX: MOB) is pleased to announce it has received its first order from Smart Shooter, an Israel-based world leader in fire control teleoperation systems.

Smart Shooter will incorporate Mobilicom's controller and MESH networking products (Mobilicom's SkyHopper Pro and Mobile Controller Terminal) into its SMASH family of fire control systems, including its SMASH Hopper Light Remote-Controlled Weapon Station (LRCWS). These systems require a robust and highly-secured data link to operate remotely for their customers in Israel and the United States.

Smart Shooter CEO, Michal Mor, said: "We are honored to work with Mobilicom, and combine its innovative technologies and products into our SMASH Hopper family of solution. Fielded and operational, SMASH family create a significant advantage for the infantry soldier and ultimately revolutionizing the world of small arms and optics."

Mobilicom CEO Oren Elkayam said Mobilicom products would be integrated in Smart Shooter's three leading systems, targeting worldwide sales. Mr Elkayam said: "Smart Shooter develops innovative technologies that help law enforcement and military professionals quickly and accurately neutralize targets using the teleoperated fire control systems. We are excited to be working with another business showcasing market leading technology, and expect repeat orders from Smart Shooter as it grows sales of its products over the coming years."

Mobilicom expects to deliver the first products under the first Smart Shooter purchase order before the end of March 2021.

About Smart Shooter

SMART SHOOTER is a world-class designer, developer, and manufacturer of innovative fire control systems that significantly increase the accuracy and lethality of small arms. With a rich record in designing unique solutions for the warfighter, SMART SHOOTER technology enhances mission effectiveness through the ability to accurately engage and eliminate ground, aerial, static or moving targets during both day and night operations.

About Mobilicom

Mobilicom Limited is a high-tech company that designs, develops and delivers communication solutions for mission-critical and remote mobile private networks that can operate without the need for existing infrastructure. Mobilicom products and technologies are based on an innovative approach that merges 4G and Mobile MESH technologies. Mobilicom offers a large solution portfolio that has been deployed worldwide.

Mobilicom has two business entities. The first is Mobilicom's core business entity, with solutions that cater to mission-critical communication in the Government and Enterprise sector with applications in unmanned platforms, disaster relief and public safety, and offshore and remote areas. The second is its SkyHopper business entity, an end-to-end equipment and solution provider, which targets the Commercial Drone & Robotics sector. SkyHopper's holistic approach enables commercial drone and robotics manufacturers to focus on their own business objectives by reducing time-to-market, minimizing resource expenditures and increasing their chances for success.
