

18 MARCH 2021

ASX ANNOUNCEMENT

ASX: EGR

## EcoGraf and First Sentier Sharecafe Hidden Gems Webinar

**EcoGraf Limited (EcoGraf or the Company)** (ASX: EGR) is pleased to advise that a recording is available on its website of a presentation by EcoGraf's Executive Director – Finance, Mr. Howard Rae, for the Sharecafe Hidden Gems Webinar held on 12 March 2021, that focussed on the clean/green energy sector.

The recording also includes a keynote speech delivered at the webinar by Mr. Tim Canham, Senior Portfolio Manager, Emerging Companies at First Sentier Investors, which is EcoGraf's largest shareholder.

The graphic features a dark blue background on the left with a white line graph icon and the text 'Sharecafe'. Below this is 'Hidden Gems Webinar Presentation' and 'IN THE CLEAN/GREEN ENERGY SECTOR'. At the bottom left, it says 'Friday 12th March 2021. (ASX:EGR)'. On the right, there is a white background with the EcoGraf logo and 'First Sentier Investors' logo.

Access to the webinar recording is available at:

## ENGINEERING CLEAN ENERGY

### About EcoGraf

Founded on a commitment to innovation and sustainability, EcoGraf is building a vertically integrated business to produce high purity graphite for the lithium-ion battery market.

The new state-of-the-art processing facility in Western Australia will manufacture spherical graphite products for export to Asia, Europe and North America using a superior, environmentally responsible purification technology to provide customers with sustainably produced, high performance battery anode graphite. In time the battery graphite production base will be expanded to include additional facilities in Europe and North America to support the global transition to clean, renewable energy in the coming decade.

In addition, the Company's breakthrough recovery of graphite from recycled batteries using its EcoGraf™ process will enable the recycling industry to reduce battery waste and use recycled graphite to improve battery lifecycle efficiency.

To complement the battery graphite operations, EcoGraf is also developing the TanzGraphite natural flake graphite business, commencing with the Epanko Graphite Project, which will supply additional feedstock for the spherical graphite processing facilities and provide customers with a long term supply of high quality graphite products for industrial applications such as refractories, recarburisers and lubricants.

EcoGraf, a unique vertically integrated graphite business, positioned for the future of clean energy.

A video fly-through of this new facility is available online at the following link:
