CVCheck – best sales on record, Bright acquisition on schedule

Highlights

- **Strong trading conditions during February resulted in a new all-time record month of sales and the 12-month booked ARR**
- **New wins and order strength from pre-existing customers are driving strong sales growth**
- **March sales continue strong**
- **Bright People Technologies acquisition on schedule to close in April**

CV Check Limited ('CV1' or 'the Company') is pleased to provide this brief update on recent trading conditions.

CV1 CEO, Rod Sherwood, said: "A very strong couple of months have kicked off the calendar year. A strong January was followed by new all-time revenue records being set in February for both a single month of sales and the booked 12-month ARR. Growth is being driven by both new customer wins and high order flow from long standing customers who are active in bringing on new hires and re-compliance screening. March sales volume as experienced to date continues to be very strong.

The Bright People Technologies transaction is on schedule with settlement expected to take place in early April."
